Chita Aquafeed Mill Obtains ASC Feed Certification

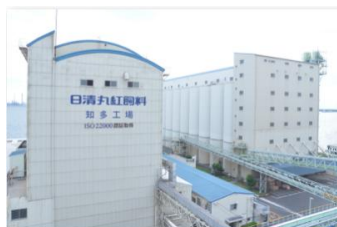

Marubeni Nisshin Feed Co., Ltd. (Head Office: Chuo-ku, Tokyo; President Director: Kazuhiro Miyauchi; hereinafter “the Company”) is pleased to announce that on December 23, 2025, our Chita Aquafeed Mill obtained ASC (Aquaculture Stewardship Council) Feed Certification.

ASC Certification is an international certification scheme aimed at realizing sustainable aquaculture, covering such aspects as environmental conservation, consideration for local communities, and responsibility for working conditions. At our Chita Aquafeed Mill, in addition to the feed manufacturing technologies and strict quality control we have cultivated to date, we have reduced environmental impact, strengthened traceability, and promoted responsible raw material procurement, thereby meeting the ASC certification standards.

Through the supply of feed that supports the production of safe, reliable, and sustainable aquatic products, the Company will further promote environmentally and socially conscious manufacturing. Under our slogan, “Supporting life and future through food” we will continue to contribute to the aquaculture industry and to society.
